WASHINGTON UNION. New Volume, New Types, and New Arrangements.

TO THE NATIONAL DEMOCRACY OF THE UNITED STATES.

THE undersigned takes this method of informing the members of the great national democratic party that, have assumed the sole proprietorality and coltorably of the Wasmixons work, he looks to them for that countenance, encouragement, and upport which has interfer been extended to this time-denored organ the democracy, and without which his labors would indeed be prof Users, he nous to them for that commentance, encouragement, and support which has hinter to here retended to this time-thonored organ of the democracy, and without which his labors would indeed be profitless.

Under the new arrangement, the typographical appearance of the fusion has been entirely changed and improved. New and beautiful type is now used in its dudy, send weekly, and weekly issues, and the paper upon which it is printed is of an extra superior quality. It is my intention to enlarge its size, as the demands or the necessities of the future may require; and it is my fixed purpose to appear eighter expense nor effort to make it the great contral organ of the democratic party, every way worthy of their confidences and support, and a reliable and faithful medium of communication between the capital and the Country. Having for many years exerted my best efforts to bring a file the country. Having for many years exerted my best efforts to bring the file continued to the country. I shall render to him and to his administration all the support which party ties and personnl friend-ship can inspire. A great crisis in the aftains of the country—a crisis fraught with peril and danger to the rights of the States and the permanency of the Union—demonstrated to the induced temocracy and the patriotic people of the country that his acknowledged talents, matered wisdom, approved statesamanship, and long experience, were necessary to their peace and safety, and they placed him, with acclamations, at the leads of the government and the hadion. He realized an once their hopes and expectations by calling to his assistance a cabinet form committing the rarest qualifications of talents, experience, and statesmanship—men endeared to the democratic party by all their anices depth; by the zeal which they had displayed and the services which they had rendered in some of the most honorable offices of the country, in supporting and sustaining the principles, the measures, and the policy of our party. A few weeks has sufficed

citoria to place a copy of the Daily Wooky, or Sent-Weekly Union in the hands of every farmer, mechanic, and working-man in the country.

The subscription price of the Daily Union is ten dollars per annum. The Tri-Weekly (published semi-weekly during the recess of Congress) is five dollars per annum, and contains all the reading matter which appears in the baily. The Weekly Jimon is furnished to subscribers at the low rate of one dollar per annum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely-printed sheet, and contains as much reading matter in the course of a welvemonth as would make teede ordinary oclare rolanes. It will be found to possess the advantages of both a political and a family newspaper. The most important political articles of the daily issue are transferred to the weekly, and during the stiting of Congress a careful abstract of the daily proceedings of the two houses is prepared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, speeches of distinguished democrats in and out of Congress, interesting correspendence, a full summary of foreign and domestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

That the Weekly Union is appreciated in the most substantial manner by democrats in every socious of the Union, no better evidence need be desired than is furnished by its rapidly increasing circulation. Within eighteen months isomyl flowands sees some have been added to the asheription list, and, with the shightest exertion on the part of our friends, its circulation can be increased to one hundred thousand conject before the close of the year. Will our friends exert themselves of the connective of the Weekly Union of correct miseryrecentations, expose falsehood, dispel error, and to bring before the people the principles and

Wheeler & Wilson. MANUFACTURING COMPANY'S IMPROVED SEWING MACHINES,

Families, Manufacturers, and Others.

THESE machines combine all the improvements that have been invented. Their extensive and increasing sale, and the unanimous approval and commendation that they have received, warrant the proprietors in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire astisfaction.

Among the undoubted advantages that they possess over all others, e:

1st. Beauty and simplicity of construction, and consom derangement and need of repairs.

2d. Unexampled case and rapidity of operation.

3d. Noiseless movement.
